IFRS 15 REVENUE FROM CONTRACTS WITH CUSTOMERS & IFRS 16 LEASES

6 CPD UNITS

International Financial Reporting Standards are the principles/standards used globally by accountants and auditors to prepare and audit the financial statements of both private and public companies. In the context of Continuous Professional Development, accountants and auditors are required to have deep knowledge and understanding of these standards in order to respond to the current professional environment and demands. Both IFRS 15 and IFRS 16 affect the majority of companies' financial statements. The aim of this course is to provide an overview of the main principles and technical issues needed for the purposes of the appropriate application of both IFRSs.
